

30 November 2011

The fund aims to provide long term growth by investing in a diversified portfolio of assets and a range of investment managers. These investment managers are selected for their investment expertise in particular markets across the world and are monitored on an ongoing basis. The fund's assets can include equities, fixed interest, property and money market instruments (including cash), from both Ireland and overseas. The fund is predominantly invested in equities.

The selection and ongoing monitoring of investment managers is currently undertaken by Wilshire Associates and is based on extensive research with the aim of blending managers with different investment styles.

Please note that Wilshire Associates does not select managers for any property exposure. The property exposure is currently managed by Standard Life.

The fund may use derivatives for the purpose of efficient portfolio management, reduction of risk or to meet its investment objective if this is permitted and appropriate.
