Tax treatment on death	Same as ARF

Pension transfers

* PRSA transfer restrictions

Transfers from occupational to PRSAs can only be executed where:

- The individual has had less than 15 years qualifying service and the scheme is being wound up or the individual is changing job and
- The transfer is less than €10,000.

If the transfer value is over €10,000 then a 'certificate of benefits comparison' is required.

Please contact the Technical Solutions team for details of where and how this can be obtained.

If the transferring scheme is being wound up, the requirement for a certificate is removed.

Appendix - Standard Fund Threshold

The Standard Fund Threshold remains at €2 million. The Capitalisation Factor for valuing a DB scheme depends on age.

Age	Factor	Age	Factor
50 (and below)	37	61	29
51	36	62	28
52	36	63	27
53	35	64	27
54	34	65	26
55	33	66	25
56	33	67	24
57	32	68	24
58	31	69	23
59	30	70+	22
60	30		

DC schemes

For DC type pension arrangements, the capital value of pension rights remain the same: the value of the fund.

A P60 or payslip has been required when submitting an application for a one member scheme to verify member is being paid PAYE income and their salary for funding purposes.

DB schemes

All DB pension rights accrued up to 1 January 2014 and crystallised after that date will be valued at the point of drawdown for BCE purposes at the current capitalisation factor of 20.

All DB pension rights accrued after 1 January 2014 and crystallised after that date will be valued at the point of drawdown for BCE purposes using the appropriate age related valuation factor.

Where a DB pension is drawn down after 1 January 2014, part of which was accrued up to that date and part after that date, the calculation of the capital value will be split accordingly with the portion accrued up to 1 January capitalised using the current standard capitalisation factor of 20 and the portion accrued after that date capitalised using the appropriate age related valuation factor.
